MARCH 24, 2019

We have exciting news to share! Hyr Medical has promoted:

- **Sunil Pandya, MD/MBA** from Regional VP Hospitalist Services to **Chief Strategy Officer**
- **Spencer Liebman** from the Senior VP Business Development to **Chief Operating Officer**

Sunil and Spencer are well-known and well-respected in the healthcare industry. They are proven leaders and executives who bring decades of experience in the areas of medical practice management, clinical engagement and entrepreneurship. In addition, Sunil and Spencer have successfully worked together before, building and selling two medical practices. According to Manoj Jhaveri, Co-Founder & CEO – “Sunil and Spencer are truly special individuals. Their ability to define a vision, build and lead great teams and execute is second to none. On a personal note, I feel so fortunate that they have decided to join Hyr as full-time executives; our C-suite is now complete. We will all learn so much from them and they will take our ambitious company to the next level!”

Sunil Pandya, MD/MBA, Chief Strategy Officer (email: spandya@hyrmed.com)

Sunil has over 15 years of clinical experience in nearly every aspect of hospital medicine. He has held leadership roles at the highest levels including Chief Medical Officer, Chief Strategy Officer and National Medical Director. Sunil has also successfully created and sold five companies to various national physician management corporations.

Spencer Liebmann, Chief Operating Officer (email: sliebmann@hyrmed.com)

Spencer has over 25 years of executive leadership experience in the healthcare industry. He has held executive leadership roles as both Chief Operating Officer and President of Hospital Medicine. Spencer is an experienced entrepreneur who has built and sold four companies and successfully led large sales and customer service teams.

Hyr Medical has built a web-based marketplace that eliminates the agency middle man. We enable direct connections between Practitioners and Medical Practices, automate portions of the credentialing process, and provide upfront transparency into rates and practice locations. The result: ~5x faster credentialing process, lower costs for Medical Practices, significantly higher rates for Physicians, and a system that finally attracts and rewards quality, Freelance Practitioners. **Everybody Wins!**
